CORE & VISUAL COMPUTING GROUP

CHG positions:

Job Requisition Number	Job Title
JR0075020	Low Power Methodology Engineer
JR0073231	FC Timing Analysis and Sign off
JR0073230	Formal Equivalence Verification(FEV) Lead
JR0073130	Structural Design & Timing Engineer
JR0073127	Structural Design Engineer
JR0073126	Structural Design Engineer
JR0072799	Static Timing Signoff Specialist
JR0072729	Physical Design Expert
JR0071110	Physical Design Manager
JR0070575	Structural Design / Component Design Engineer
JR0069471	IP-SoC Reliability Verification and PDN design Engineer
JR0069446	Clock design specialist
JR0069437	Logic Signoff Methodology Engineer
JR0069122	Physical Design Methodology
JR0062787	SOC Design Engineer

PAG

Job Requisition Number	Job Title
JR0065328	Coherent Fabric Engineer
JR0060728	Architecture Simulation Engineer
JR0060723	Architecture Simulation Engineer

CIG

Job Requisition Number	Job Title
JR0075571	Senior Verification Engineer
JR0075574	Product Engineering
JR0075576	System Validation
JR0075577	System Validation
JR0075578	System Validation
JR0068657	Verification Engineer
JR0073246	Project analyst
JR0072641	Senior Verification Engineer
JR0074211	Design Engineer

MVE

Job Requisition Number	Job Title
JR0074568	System Validation Engineer - Power Management
JR0074570	System Validation Engineer- Memory
JR0074571	System Validation Engineer - Power Management
JR0074573	System Validation Engineer- Security
JR0074575	System Validation Engineer - USB

SILICON ENGINEERING GROUP

Scalable Performance CPU Development Group (SDG)

SDG is Intel's Scalable Performance CPU Development Group with the vision to be the leading developer of innovative silicon technologies & products that fuel the growth of the datacenter market & beyond; SDG designs, validates, & delivers silicon products to Intel's business groups: DCG, IOTG, CCG, ADG for their product portfolios, enabling Intel's vision & mission.

SDG Vision: Be the innovative design team of silicon technologies & products that fuel Intel's growth in the datacenter market & beyond.

SDG Mission: Deliver general purpose & custom server, storage & networking products that meet our performance, schedule, & cost commitments.

Job Requisition Number	Job Title
JR0064221	Senior Physical Design Engineer
JR0066289	Senior Verification Engineer
JR0066352	IP-SS Senior Verification Engineer
JR0066353	IP Logic Design Lead
JR0066354	IP-SS Verification lead

JR0066357	SOC Physical Design Engineer
JR0066358	SOC Physical Design Engineer
JR0066521	SoC Physical Design Engineer
JR0066530	Analog Design Engineer
JR0066535	SOC DFx Engineer
JR0066577	SD Manager
JR0066590	SOC design Engineer
JR0066592	SOC design Engineer
JR0066601	SoC Physical Design Engineer
JR0066627	SOC Design Engineer, Layout Verification methodology
JR0066644	SoC Verification Engineer
JR0066645	SoC verification Engineer
JR0066801	Analog Layout Engineer
JR0066935	DFT Engineer
JR0066945	Sr STA engineer
JR0066947	STA engineer
JR0067249	SoC Design Engineering Manager
JR0067270	Logic Design Engineer
JR0068462	Validation Infrastructure Development Engineer
JR0068757	SoC Design Engineer
JR0068907	Validation Infrastructure Development Engineer
JR0069304	SoC Pre Si Validation Engineer
JR0072030	Business Operations Manager
JR0072244	Pre Silicon Validation Engineer
JR0072248	SOC Design Engineer
JR0072259	Pre-Silicon Verification Engineer DFT
JR0072759	DFT Engineer
JR0072916	Engineering Manager
JR0073080	Logic Design Engineer
JR0073081	SoC Design Engineering Manager Structural Design
JR0073083	Structural Design Engineer
JR0073084	Logic Design Engineer
JR0073177	Senior SOC design Engineer
JR0073178	SOC Design Engineer
JR0074214	Senior Pre-silicon Verification Engineer
JR0074669	Pre-Si Emulation engineer
JR0075378	DFT Engineering Manager

HPG

Job Requisition Number	Job Title
JR0074707	SOC Design Engineer Lead
JR0071600	Physical Design Lead
JR0074255	Lead SoC Design Engineer

JR0073475	Analog Engineer
JR0071935	Analog Design Engineer
JR0071364	Emulation Engineer
JR0071359	Emulation Lead Engineer
JR0071357	Emulation Engineer
JR0070809	Analog Design Lead
JR0070808	Analog Design Lead
JR0070416	SoC Design Engineer
JR0069816	SoC Lead
JR0068774	Analog Design Engineer
JR0068759	SoC Design Engineer
JR0066657	SoC Design Engineer
JR0064817	SoC Design Lead
JR0071674	Pre-Silicon System Validation Engineer
JR0071888	GLS Verification Engineer
JR0072229	SOC Design Engineer
JR0073857	Silicon Architect

Cores Group (CIPG)

The **Core IP Group (CIPG)** designs the highly competitive portfolio of CPU Core IPs at the heart of the Intel® Atom™, Intel® Core® and Intel® Xeon® processor families.
- o Our team of industry leaders and technical experts continually advances the effectiveness and efficiency of front-end design, validation and back-end design.

- o We help drive Intel's revenue by working hand-in-hand with Intel's SoC teams and business units.
